RE: Docket No. 98N-1265

Dear Sir,

I am forwarding this letter to you as a consumer of health care services. I would like to express my concern AND disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

In its present form, the MOU and the compounding Section 503A of the Modernization Act, severely restricts the rights of doctors and patients to receive healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical needs.

As a consumer, there should be NO RESTRICTIONS to the delivery of compounded medication prescribed for me, regardless of where I live or travel. THE MOU MUST BE AMENDED!

98N-1265

The purpose of the FDA is supposed
to be to protect the consumer's
safety. THIS IS NOT A SAFETY ISSUE.
As a governmental agency, it also
has a responsibility to be accountable
to the public.

So, once again, I stress on behalf
of myself and the American public—
THE MOU MUST BE AMENDED!

Thank You,

Linda Boso
